

Dear Parent/Guardian,

Everyone:1 is designed to allow your child to take their assigned computer off campus.

If you want your student to have the computer for use off campus, your student will attend training (written or online) where they will receive information regarding care and responsible use of the device.

If you prefer that your student use a personal computer from home, please ensure the computer meets the requirements outlined in the Bring Your Own Device (BYOD) section of this handbook.

Please note that a computer will not be available for your student to take home until this document is completed.

The device will be checked out to the student until the student is not enrolled in Austin ISD or asked to be returned by a campus administrator.

Parent Consent for Issuing Technology Equipment for Use at Home

Yes, I want my child to have AISD technology equipment assigned to him/her for use at home.

Child's Name

I want my child to use **his/her personally owned device**.

Parent/Guardian Signature

No, I do not want my child to have AISD technology equipment assigned to him/her for use at home.
